

# **SACKETT** BATTERY HANDLING **SYSTEMS** INC.

SINCE 1897

YOUR EXPERTS IN BATTERY MANAGEMENT

## BATTERY TRANSFER CARTS

Transfer carts are used with roller equipped type stands to eliminate overhead lifting operations by allowing the user to roll batteries from one unit to another. All SACKETT'S transfer carts pull the battery **completely** onto the cart. No extra handling is needed. Battery Compartment Rollers are available to modify most non-roller type trucks.

### GENERAL SPECIFICATIONS FOR TRANSFER CARTS:

- Single Battery Compartment
- 3000 lb. Capacity
- 2-3/8" Diameter Roller with Acid Resistant, Non-Conductive Coating and Sealed Bearings (3 year warranty)
- Vertical Roller Adjustment from 6" to 24"
- Flip-Up Battery Stop
- Rubber Back Stop
- 5" Composition Wheels
- Floor Lock
- Safe, One-Man Battery Transfer

SACKETT offers many different models to fit your requirements.

#### Battery Transfer Carts with Push/Pull Extractor

All models include:

Safety Chains with hooks (SAFETY NOTE! Should be attached to vehicle)  
Extractor Lock to prevent battery roll-off, if flip up battery stop isn't up (see inset)

#### MODELS TC18-P, TC24-P & TC30-P

Mechanically Driven Push/Pull Extractor Hand Operated Vertical Height Adjustment with dual hydraulic jacks

#### MODELS TC18-PP, TC24-PP & TC30-PP

Hydraulically Powered Push/Pull Extractor (2) 6v batteries  
Hand Operated Vertical Height Adjustment with dual hydraulic jacks

#### MODELS TC18-PL, L TC24-PL & TC30-PL

Hydraulically Powered Vertical Height Adjustment with dual high precision cylinders

Two (2) 6-volt batteries for power lift

Mechanically Drive Push/Pull Extractor

Rack & Pinion Equalization on TC24-PL & 30-PL

#### MODELS TC18-P & TC24-P

HEAVY DUTY WINCH

HAND OPERATED VERTICAL HEIGHT ADJUSTMENT WITH SINGLE HYDRAULIC JACK (see inset)

# POWERED TRANSFER CART TRACK MOUNTED

Model PTC-V-TM

## GENERAL SPECIFICATIONS

- 3000 lb. Capacity
- Heavy Duty Construction
- 2-3/8" Diameter Non-Conductive Rollers (3 year warranty)
- Track Mounted, Double Flanged Wheels
- Hydraulically Powered Travel
- Hydraulically Power Push/Pull Plate
- Vacuum Cup Extraction
- 12 volt DC
- Operator Platform in rear or on side
- Hydraulically Powered Lift
- 6" Hydraulic Vacuum Cup Extension Available (see inset)

## Options:

- AC Operation
- Magnet Extraction

REDUCE CHARGING AREA SIZE  
NO NEED TO ATTACH CART TO VEHICLE  
REDUCED OPERATOR FATIGUE  
QUICK/SAFE BATTERY CHANGEOUT  
REDUCE BATTERY CONTACT
