### Take Advantage of the Economic Stimulus Act with Your Next Sackett Purchase

There is still time to take advantage of the 2008 Economic Stimulus Act that increases the amount of qualified property that you can expense under Section 179 to \$250,000 for equipment placed in service between December 31, 2007 and January 1, 2009. (Total amount of equipment purchased may not exceed \$800,000.) This offer is only good for purchases made in 2008 and the equipment must be installed and in operation by the end of the year. [Click here to download further information.](#)

Save even more money and keep your capital liquid by combining the 2008 Economic Stimulus Act with the finance offerings provided through Sackett Systems Inc. and Harris Bank. Call us today at 800-323-8332 for more details.

### Happy Holidays from Sackett Systems!

### Company History

The Sackett tradition of durability, quality and reliability began in 1897, when the company was established in Chicago, IL as H.B. Sackett Screen and Chute Co. Serving the coal industry, we produced Hi Carbo steel chutes and screens. In 1913, our Loading and Screening Outfits were timed to empty, deliver and screen 3 to 5 tons of coal from silos in 1-1/2 to 3 minutes - a record that still stands.

From the coal industry, Sackett branched out to providing the paper mill and concrete distributing industries with material handling equipment.

Single Floor Hopper

In the 1950's, Sackett Systems became an innovator in battery handling equipment, developing, among other systems, the first lifting beam, transfer cart, battery roller stand and battery changing system. Over the years, Sackett has developed many of the industry's most innovative products.

2007 saw the debut of Sackett's revolutionary super-efficient fully-automated Northstar System, an unmanned battery changing system which changes batteries in one minute or less and can safely store batteries up to 10 high.
