## Battery Handling Solutions by Sackett Systems

November, 2007

### Eliminate Battery Lifting Operations with Sackett's Powered Lift Transfer Carts

Heavy-Duty Pallet Jack  
Mounted Transfer Cart

#### Sackett's Heavy-Duty Pallet Jack Mounted Transfer Cart with Powered Lift (HPT-PL):

- has a 5,000 lb. capacity.
- is powered by the pallet jack.
- comes in 3 model widths - 30", 36" and 42"
- is versatile. This single transfer cart with its independent lift feature can change your narrow aisle trucks with a 6-1/4" battery compartment height and your sit down riders with a 24" battery compartment height.

### Sackett's GoldStar Dealers Are Committed to Excellence

Our goal at Sackett Systems is to provide market leadership in battery handling equipment with:

- New product technology
- High product quality
- Best product reliability and serviceability
- Superior customer service

In order to achieve this goal, we partner with material handling dealers and distributors who are committed to providing excellent service to their customers, who become our **GoldStar Dealers**.

**GoldStar Dealers** are our preferred sales, service, and installation partners in their respective geographic regions.

**GoldStar Dealers** have received factory certified training on Sackett service, installation, and parts identification.

**GoldStar Dealers** have Sackett parts in stock and regularly replenish their parts inventory.

**GoldStar Dealers** have 24 hour service contacts available for their customers.

### Company History

The Sackett tradition of durability, quality and reliability began in 1897, when the company was established in Chicago, IL as H.B. Sackett Screen and Chute Co. Serving the coal industry, we produced Hi Carbo steel chutes and screens. In 1913, our Loading and Screening Outfits were timed to empty, deliver and screen 3 to 5 tons of coal from silos in 1-1/2 to 3 minutes - a record that still stands.

From the coal industry, Sackett branched out to providing the paper mill and concrete distributing industries with material handling equipment.

#### Combination Bagger

In the 1950's, Sackett Systems became an innovator in battery handling equipment, developing, among other systems, the first lifting beam, transfer cart, battery roller stand and battery changing system. Over the years, Sackett has developed many of the industry's most innovative products.

2007 saw the debut of Sackett's revolutionary super-efficient fully-automated Northstar System, an unmanned battery changing system which changes batteries in one minute or less and can safely store batteries up to 10 high.

### Upcoming Events

#### Create Your Own Tax Break!!

Take advantage of 2007 tax savings and acquire your equipment before year-end! Under Tax Code Section 179, businesses that spend less than \$500,000 a year on qualified equipment can write off up to \$125,000.00 in 2007.
